Claims discussed: As of record

Identification of prior art discussed: U.S. Patent No. 4,145,161

Description of the general nature of what was agreed to if an agreement was reached, or any other comments: Attorney Patch informed the examiner that in prior art process, the temperature, pressure and time are 90°C, 1 bar and 30 mins respectively, whereas in instant application the temperature, pressure & time are > 130°C, > 3.5 bars and 2-5 mins and therefore claims are obvious. Examiner also invited the attorney to explain how the specification defines the scope for "Starch derivatives" and avoids.

(A fuller description, if necessary, and a copy of the amendments, if available, which the examiner agreed would render the claims allowable must be attached. Also, where no copy of the amendments which would render the claims allowable is available, a summary thereof must be attached.)

Unless the paragraphs below have been checked to indicate to the contrary, A FORMAL WRITTEN RESPONSE TO THE LAST OFFICE ACTION IS NOT WAIVED AND MUST INCLUDE THE SUBSTANCE OF THE INTERVIEW (e.g., items 1-7 on the reverse side of this form). If a response to the last Office action has already been filed, then applicant is given one month from this interview date to provide a statement of the substance of the interview.

 It is not necessary for applicant to provide a separate record of the substance of the interview. Since the examiner's interview summary above (including any attachments) reflects a complete response to each of the objections, rejections and requirements that may be present in the last Office action, and since the claims are now allowable, this completed form is considered to fulfill the response requirements of the last Office action.Issue under 35 U.S.C 112, 1st
